Letter of Reference for EHEIM Möbel GmbH

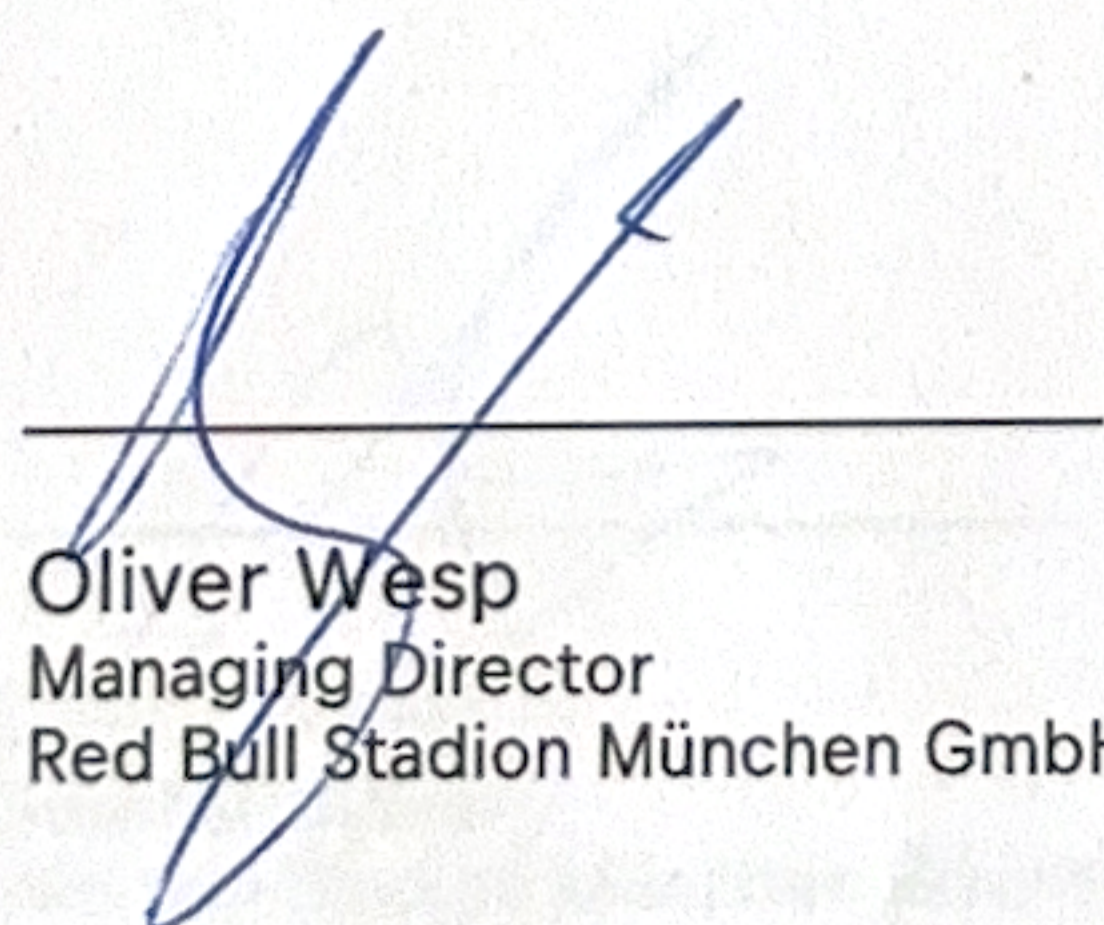

The SAP Garden in Munich is a modern, multifunctional arena located in the heart of the Olympic Park. With a capacity of up to 11,500 spectators, it is designed to host ice hockey, basketball and public skating events. Opened in September 2024, the arena is distinguished by its sustainable architecture, which blends seamlessly into the surrounding landscape of the Olympic Park.

In addition to the main arena, the SAP Garden features three underground ice rinks for training and serves as the home venue for EHC Red Bull Munich and FC Bayern Munich. The venue is also used for a wide range of events, including concerts and esports competitions, making it an important hub for sport, culture and entertainment in Munich.

The selection of spectator seating had to meet high standards in terms of design and comfort while also fulfilling the multifunctional requirements of the innovative dual-rise stands. Due to the intensive use of the arena and the constant change of event formats, the seating system also had to meet the highest standards of reliability, durability and performance.

Based on these criteria, we selected the seating models from the ARC series by EHEIM Möbel GmbH, Öhringen.

Our high expectations were fully met, and all work was carried out professionally, reliably and on schedule.

Oliver Wesp
Managing Director
Red Bull Stadion München GmbH
